Proposal for a

REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

amending the Staff Regulations of Officials and the Conditions of Employment of Other Servants of the European Union

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 336 thereof,

Having regard to the proposal from the European Commission, submitted following consultation with the Staff Regulations Committee,

After transmission of the draft legislative act to the national Parliaments,

Having regard to the opinion of the Court of Justice,

Having regard to the opinion of the Court of Auditors,

Acting in accordance with the ordinary legislative procedure,

Whereas:

- (1) The European Union should be equipped with a high-quality European public administration, so as to enable it to perform its tasks to the highest possible standard in accordance with the Treaties and to meet the challenges, both internal and external, that it will face in the future.
- (2) Consequently, it is necessary to provide a framework for the recruitment by the Union of high calibre staff in terms of productivity and integrity, drawn on the widest possible geographical basis from among citizens of the Member States, and to enable such staff to carry out their duties as effectively and efficiently as possible.
- (3) A broader aim should be to optimise human resources management in a European civil service characterised by competence, independence, loyalty, impartiality and permanence, as well as by cultural and linguistic diversity.
- (4) In the interest of guaranteeing that the purchasing power of Union officials and other servants develop in parallel with that of national civil servants in central governments of the Member States, it is essential to preserve the principle of a multi-annual mechanism for pay, known as 'the Method', by extending its application until the end of 2020 with a review at the end of the fifth year.
- (5) The potential advantages for officials and other servants of the Union of a multi-annual pay system should be balanced by the continuation of the system of special levy, to be renamed as 'solidarity levy'. While the rate of the special levy in force

during the period from 2004 to 2012 increased gradually over time and averaged at 4.23 %, it seems appropriate in the present circumstances to set the solidarity levy at the uniform rate of 5.5%, so as to take account of a difficult economic context and its ramifications for public finances throughout the Union. Such a solidarity levy should apply to all officials and other servants of the Union for the same period as the 'Method' itself.

- (6) Demographic changes and the changing age structure of the population concerned require that the pension age be increased, subject however to transitional measures for officials and other servant of the Union already in service.
- (7) Since the European pension scheme is in actuarial balance and this balance has to be maintained in the short and in the long term, staff employed before 1 January 2013 should be compensated for their pension contribution by transitional measures, such as a higher accrual rate for the years of service after the statutory retirement age (Barcelona incentive) and by applying half of the reduction for early retirement between the age of 60 and the statutory retirement age.
- (8) The commonly accepted actuarial practice requires that a period of past observations between 20 and 40 years be used for interest rates and salary growth with a view to ensuring the balance of pension schemes. The moving averages for interest rates and salary growth should therefore be extended to 30 years with a transitional period of 9 years.
- (9) The Council requested from the Commission a study and the submission of appropriate proposals on Article 5(4), Annex I.A and Article 45(1) of the Staff Regulations with a view to establishing a clear link between responsibilities and grade in the AST function group and in order to ensure a greater emphasis on the level of responsibility when comparing merits in the context of promotion.
- (10) Taking this request into account, it is appropriate that promotion to a higher grade should be made conditional on performing duties whose importance justifies the official's appointment to that higher grade.
- (11) The career stream in the AST function group should be restructured in such a way that the top grades will be reserved for a limited number of officials exercising the highest level of responsibilities with regard to staff management, budget implementation or coordination in this function group.
- (12) Working hours applied in the institutions should be aligned to those in force in some of the Member States of the Union to compensate for the reduction of staff in the institutions. The introduction of a minimum number of weekly working hours will ensure that the staff employed by the institutions is able to carry out the work-load resulting from the Union's policy objectives while, at the same time, harmonising working conditions in the institutions, in the interest of solidarity throughout the Union's civil service.
- (13) Flexible working-time arrangements are an essential element of a modern and efficient public administration allowing for family friendly working conditions and enabling a suitable gender balance within the institutions. It is therefore necessary to introduce an explicit reference to these arrangements in the Staff Regulations.

- (14) The rules on annual travelling time and annual payment of costs of travel between the place of employment and the place of origin should be modernised, rationalised and linked with the expatriate status, in order to make their application simpler and more transparent. The annual travelling time should be limited to a maximum of two days and the annual payment of costs of travel should be limited to territories of the Member States of the Union.
- (15) It is appropriate to provide a more flexible framework for the employment of contract staff. In particular, the institutions of the Union should be enabled to engage contract staff for an indefinite period in order to perform clerical and secretarial tasks, office management and other equivalent tasks under the supervision of officials or temporary staff.
- (16) Transitional arrangements should be provided to enable the new rules and measures to be applied gradually, whilst respecting the acquired rights and legitimate expectations of the staff employed before the entry into force of these amendments to the Staff Regulations.
- (17) In the interest of a consistent staff policy, the rules adopted by the Commission to implement the Staff Regulations should apply by analogy to the agencies. However, in order to ensure that the specific situation of agencies may, if necessary, be taken into account, agencies should be entitled to request the Commission's authorisation to adopt implementing rules which derogate from those adopted by the Commission, or not to apply the Commission's rules at all.
- (18) A register of all of the rules adopted to give effect to the Staff Regulations should be set up and administered within the Court of Justice of the European Union. This register, which can be consulted by all institutions and agencies, will allow for transparency and promote a cohesive application of the Staff Regulations.
- (19) Taking into account the high number of temporary staff within agencies and the need to define a consistent staff policy, it is necessary to create a new category of temporary staff and to lay down specific rules for this category.
- (20) In order to achieve the objectives set out in the Staff Regulations, the power to adopt acts in accordance with Article 290 of the Treaty on the Functioning of the European Union should be delegated to the Commission in respect of certain aspects of working conditions and in respect of the adjustments of the remuneration and the pensions of officials and other servants of the European Union and the correction coefficient applied thereto.
- (21) The Commission, when preparing and drawing-up delegated acts, should ensure a simultaneous, timely and appropriate transmission of relevant documents to the European Parliament and Council,

However, if the spouse and the persons referred to in Article 2(2) do not live with the official at the place of employment, they shall be entitled each calendar year to reimbursement of travel expenses from the place of origin to the place of employment or to another place not exceeding the cost of the former journey.

Where however, in the case of a given country, the variation in the cost of living measured on the basis of the weighting and the corresponding exchange rate is found to have exceeded 5 % since the last adjustment, the Commission shall decide on interim measures for adjusting the weighting in accordance with the procedure laid down in the first paragraph.';

'Annex XI

Rules for implementing Articles 64 and 65 of the Staff Regulations

CHAPTER 1

ANNUAL REVIEW OF REMUNERATION PROVIDED FOR IN ARTICLE 65(1) OF THE STAFF REGULATIONS

SECTION 1

FACTORS DETERMINING ANNUAL ADJUSTMENTS

Article 1

1. *Report from the Statistical Office of the European Union (Eurostat)*

For the purposes of the review provided for in Article 65(1) of the Staff Regulations, Eurostat shall draw up every year before the end of September a report on the nominal changes of salaries in national civil services in central government and changes in the cost of living in Member States.

2. *Cost of Living Index*

- (a) Eurostat shall draw up a Cost of Living Index, based on data on the Harmonised Index of Consumer Prices provided by the national statistical offices, to measure changes in the cost of living in the following reference Member States: Belgium, Germany, Spain, France, Italy, Luxembourg, the Netherlands, Poland, Sweden and the United Kingdom.
- (b) This index shall take into account the changes between June of the previous year and June of the current year.
- (c) The result per country shall be weighted in proportion to its national GDP measured using purchasing power parities as shown in the most recent statistics published in accordance with the national accounts definitions in the European System of Accounts currently in force.

3. *Changes in the cost of living in Member States*

- (a) Eurostat shall draw up the economic parities to establish the equivalence of purchasing power for salaries and pensions of officials. The economic parities shall refer to the month of June each year.
- (b) In 2013 the economic parity for each country or place of employment shall be the product of the purchasing power parity as established by Eurostat on 1 July 2012 for salaries and pensions and the ratio between the inflation in the corresponding country and the Cost of Living Index. For every following year the economic parity shall be updated by the ratio between the inflation in the corresponding country and the Cost of Living Index.

- (c) However, one joint economic parity shall be calculated for Belgium and Luxembourg. For this purpose, the inflation in those countries shall be weighted according to the distribution of the Union staff therein, and the purchasing power parity shall be 1.
- (d) The economic parities shall be calculated in such a way that each basic component can be updated twice per year.

4. *Changes in the remuneration of national civil servants in central government*

- (a) Eurostat shall, on the basis of information supplied before the end of August by the national authorities concerned, calculate salary indicators reflecting either upward or downward changes in the nominal remuneration of civil servants in central government, between the month of July of the previous year and the month of July of the current year. The two should include one twelfth of all annually-paid elements.

The salary indicators shall take two forms:

- (i) one indicator for each of the function groups as defined by Eurostat,
- (ii) an average indicator weighted to reflect the number of national civil servants corresponding to each function group.

To establish the global salary indicator for the European Union total, Eurostat shall use the sample of the Member States referred to in the point (a) of paragraph 2 of this Article. The results per country shall be weighted in proportion to its national GDP measured using purchasing power parities as shown in the most recent statistics published in accordance with the national accounts definitions in the European System of Accounts currently in force.

Each of these indicators shall be established in nominal gross terms. Eurostat shall establish a definition of gross remuneration for each of the reference Member States after consulting their statistical offices.

- (b) At the request of Eurostat, the appropriate national authorities shall supply it with the additional information which it considers necessary in order to draw up a salary indicator accurately measuring changes in the remuneration of national civil servants.

If, after further consultation of the national authorities concerned, Eurostat finds statistical anomalies in the information obtained or finds it impossible to draw up indicators which measure with statistical accuracy the changes in the nominal income of civil servants in a given Member State, it shall report to the Commission and provide it with all the material it needs to make an assessment.

- (c) In addition to the salary indicators, Eurostat shall calculate certain control indicators.

The Eurostat report on the salary indicators shall be accompanied by comments on the differences between these indicators and the above-mentioned control indicators.

Article 2

The Commission shall produce a comprehensive report every three years on the recruitment requirements of the institutions and transmit it to the European Parliament and the Council. On the basis of this report the Commission shall, if necessary, present proposals based on all relevant factors to the European Parliament and the Council after consulting the other institutions within the framework of the Staff Regulations.

SECTION 2

ARRANGEMENTS FOR THE ANNUAL ADJUSTMENT OF REMUNERATION AND PENSIONS

Article 3

1. Under Article 65(3) of the Staff Regulations, on the basis of the criteria set out in Section 1 of this Annex, the remuneration and pensions shall be adjusted before the end of each year, with effect from 1 July.
2. The amount of the adjustment shall be the global salary indicator. The adjustment shall be in gross terms as a uniform across-the-board percentage.
3. The amount of the adjustment thus fixed shall be incorporated in the basic salary tables appearing in Article 66 of the Staff Regulations and in Annex XIII to the Staff Regulations and in Articles 20 and 93 of the Conditions of Employment of other servants.
4. For the purposes of applying Regulation (EEC, Euratom, ECSC) No 260/68, the amounts in Article 4 of that Regulation shall be multiplied by a factor composed of:
 - (a) the factor resulting from the previous adjustment, and/or
 - (b) the rate of adjustment of remuneration referred to in paragraph 2.
5. The correction coefficients shall be determined on the basis of the ratios between the corresponding economic parities referred to in Article 1 of this Annex and the exchange rates specified in Article 63 of the Staff Regulations for the relevant countries. They shall be applicable:
 - (a) to the salaries of officials of the Union serving in each of the Member States and in certain other places of employment,

- (b) by way of derogation from Article 82(1) of the Staff Regulations, to Union pensions paid in each of the Member States for the part corresponding to the acquired rights acquired before 1 May 2004.

The procedures laid down in Article 8 of this Annex concerning the retrospective application of correction coefficients in places of employment with a high rate of inflation shall apply.

6. The institutions shall make the corresponding positive or negative adjustment to the remuneration and pensions of the officials, former officials and other persons concerned with retroactive effect for the period between the effective date and the date of entry into force of the next adjustment.

If this retroactive adjustment necessitates the recovery of sums overpaid, such recovery may be spread over a period of not more than twelve months from the date of entry into force of the next annual adjustment.

7. For the application of this Article the Commission shall act by means of delegated acts in accordance with Articles 110a and 110b of the Staff Regulations, which shall enter into force before the end of the year.

CHAPTER 2

INTERMEDIATE ADJUSTMENTS OF REMUNERATION AND PENSIONS (ARTICLE 65(2) OF THE STAFF REGULATIONS)

Article 4

1. Intermediate adjustments of remuneration and pensions pursuant to Article 65(2) of the Staff Regulations, taking effect on 1 January, shall be made in the event of a substantial change in the cost of living between June and December (by reference to the sensitivity threshold defined in Article 6(1) of this Annex).

2. In accordance with Articles 110a and 110b of the Staff Regulations, the Commission shall act by means of delegated acts not later than the second half of April.

3. These intermediate adjustments shall be taken into account in the annual salary adjustment.

Article 5

The change in the cost of living shall be measured by the Harmonised Index of Consumer Prices for the period from June to December of the previous calendar year. However, for Belgium and Luxembourg the change in the cost of living shall be measured by the inflation in those countries weighted as laid down in point (c) of Article 1(3).

Article 6

The sensitivity threshold for the six-month period mentioned in Article 5 of this Annex shall be the percentage corresponding to 5 % for a 12 month period. If the sensitivity threshold is reached or exceeded in a Member State, the remuneration and pensions for all places of employment in that country shall be adjusted.

Article 7

For the purposes of Article 6 of this Annex, correction coefficients shall be adjusted to take into account the changes in the cost of living as referred to in Article 5.

CHAPTER 3

DATE ON WHICH A CORRECTION COEFFICIENT COMES INTO EFFECT (PLACES OF EMPLOYMENT WITH A HIGH COST-OF-LIVING INCREASE)

Article 8

1. For places with a high cost-of-living increase, the correction coefficient shall come into effect before 1 January in the case of the intermediate adjustment, or 1 July in the case of the annual adjustment. This is so as to bring the loss in purchasing power into line with what it would be in a place of employment where the change in the cost of living corresponded to the sensitivity threshold.

2. The effective dates for the annual adjustment shall be as follows:

- (a) 16 May for places of employment having an inflation higher than 5 %, and
- (b) 1 May for places of employment having an inflation higher than 10 %.

3. The effective dates for the intermediate adjustment shall be as follows:

- (a) 16 November for places of employment having an inflation higher than 5 %, and
- (b) 1 November for places of employment having an inflation higher than 10 %.

CHAPTER 4

CREATION AND WITHDRAWAL OF CORRECTION COEFFICIENTS (ARTICLE 64 OF THE STAFF REGULATIONS)

Article 9

1. The appropriate authorities of the Member States concerned, the administration of an institution of the Union or the representatives of officials of the Union in a given place of employment can request the creation of a correction coefficient specific to that place.

This request should be supported by objective factors revealing an appreciable difference over some years in the cost of living between that place of employment and the capital of the Member State concerned (except for the Netherlands where The Hague is used instead of Amsterdam). If Eurostat confirms that the difference is appreciable (more than 5 %) and sustainable, the Commission shall act by means of delegated acts in accordance with Articles 110a and 110b of the Staff Regulations, a correction coefficient for that place.

2. Likewise the Commission shall decide to withdraw the application of a correction coefficient specific to a certain place. In that case the proposal shall be based on one of the following:

- (a) a request by the appropriate authorities of the Member State concerned, the administration of an institution of the Union or the representatives of officials of the Union in a given place of employment showing that the cost of living in that place is no longer significantly different (less than 2 %) than that of the capital of the Member State concerned. This convergence should be sustainable and validated by Eurostat,
- (b) the fact that there are no longer any officials and temporary staff of the Union employed in that place.

3. Eurostat shall establish the purchasing power parity between the place of employment and the capital city of the Member State concerned. The economic parity for the place of employment shall be the product of the purchasing power parity and the correction coefficient applicable to the capital city.

CHAPTER 5

EXCEPTION CLAUSE

Article 10

If there is a decrease in the gross domestic product of the Union for the current year, forecasted by the Commission's directorate-general for economic and financial affairs, and the annual adjustment value exceeds the forecasted change in the gross domestic product of the

Union by two percentage points, the adjustment value, in case it is positive, shall be divided into two equal parts. The Commission shall act by means of delegated acts in accordance with Articles 110a and 110b of the Staff Regulations, according to which the first half of the adjustment value shall come into effect from 1 July of the current year and the second half shall come into effect from 1 July of the following year.

CHAPTER 6

ROLE OF EUROSTAT AND RELATIONS WITH THE APPROPRIATE AUTHORITIES IN THE MEMBER STATES

Article 11

It shall be the task of Eurostat to monitor the quality of basic data and statistical methods used to work out the factors taken into account for the adjustment of remuneration. In particular, it shall make any assessments or carry out any studies required for such monitoring.

Article 12

In March each year Eurostat shall convene a working group composed of experts from the appropriate authorities in the Member States to be known as the ‘Working Group on Article 65 of the Staff Regulations’.

At this meeting, the statistical methodology and its implementation concerning specific and control indicators shall be examined.

The information required to produce a forecast of changes in purchasing power for the purposes of the intermediate adjustment of remuneration shall also be provided, together with the data on working hours in central government departments.

Article 13

At the request of Eurostat, Member States shall inform Eurostat of any factors having a direct or indirect impact on the composition and changes in the remuneration of central government civil servants.

CHAPTER 7
