Dear Colleagues,

A number of new preparatory courses in English and French, EPSO Pre-selection tests – AST / AD, has been published on our Website.

Pre-selection tests for competition AST3 will soon take place. Following numerous requests, R&D has decided to offer to its members a new session. That could, just before such tests, strengthen their knowledge and / or prepare themselves for AD competitions to be held shortly after these tests.

We invite you to visit the catalogue of our training space and register for courses:
